## FROM THE PRINCIPAL'S DESK

As the calendar turns and a new academic session begins, we all prepare ourselves for new commitments, challenges and accomplishments. We are in an educational time warp. The incremental development of educational content and pedagogy in recent years must keep pace with ever-accelerating strides in technological evolution.

At Aditya Public School, we as educators not only promote learning, facilitate skill acquisition, and impart life skills, but also partake in the incredible journey of our students towards self-discovery. We continuously endeavour to help them discover their innate and latent potential and strive relentlessly towards mastery and excellence.

ADITYA Public School offers a structural teaching methodology, supported by powerful technologies for learning, making its scholars future-ready for a globalized, digitalized and dynamically changing environment.

So together, let us help our children embark upon this beautiful journey of self-discovery.

Ms. Sweta Singh

## About the Society

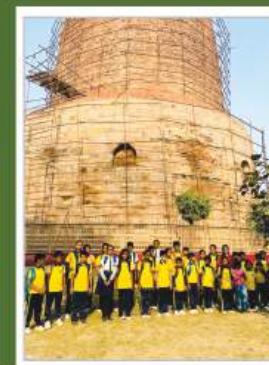

In the prevailing scenario school education has become very important, unless and until the quality of education at the school level is improved, it is foolish to expect quality education in higher education. Aditya Society for Educational Research & Development (ASERD) registered under Society Registration Act 1860 for promoting integration, creation and dissemination of knowledge. The society visualized an education system which will foster independent thinking, experimentation, universal values, overall excellence and service to humanity with a safe and caring environment.

## About the School

Aditya Public School, a co-education English medium school established by ASERD from Nursery to Standard VIII, situated at Susuwhi near Union Bank of India. APS offers state-of-the-art facilities with a safe, noise free and unpolluted environment in the campus. The school setup is such that it creates an International ethos campus which accepts both National and International values and welcomes cultures of different nationalities and respect different religions.

## We

**CULTIVATE** the importance of spiritual and moral education over material education.  
**EMPHASIZE** the laying of moral and ethical values and installing godly aims in every child.  
**PROMOTE** to make every child the light of the world  
**CREATE** a climate of encouragement to facilitate all-round development of every child.  
**DEVELOP** respect for all religions, values of co-existence, tolerance and non-violence.  
**FOSTER** qualities essential for a spiritually satisfying career and profession.  
**HELP** to build leadership and problem solving skills with positive attitudes.  
**STRIVE** to achieve self-discipline, self-esteem and self-reliance in the child.  
**ENDEAVOUR** to make every child visionary, compassionate, true to self, good and smart.
